

(By The Associated Press.)
Cleveland, May 2 (by the Associated Press).—The national convention of the socialist party adjourned today, leaving the adoption of a congressional platform and the mapping out of the party's campaign for coming elections to its executive committee, called to meet in New York, May 20.

Among the more important resolutions adopted were those calling for a new constitution by the United States of soviet Russia by resumption of trade and diplomatic relations; urging sympathetic organizations to join with the party in a mass campaign for the 113 alleged political prisoners; pledging support to the coal miners strike, and condemning alleged American coming election to the senate where miners are being tried on treason charges.

Policies Criticized.

Policies of the Government in its relations with the Dominican Republic, Mexico, Honduras, Nicaragua, Colombia, Guatemala and other Latin American countries were also

—American countries were severely criticised in resolutions. The resolution calling for recognition of soviet Russia, declared: "firmly convinced that order, sanity and peace cannot be brought into the world disorganized and distracted by the devastating war without the co-operation of all nations, the soviet government, with its 150 million human beings constituting Russia," "The convention of the Socialist party urges the complete resumption of trade and diplomatic relations with the government of that country."

The matter of raising a congressional campaign fund of \$3,000 was left to the executive committee.

New Committee.

The new committee comprises Morris Hillquit and B. C. Vladel of New York; William H. Henry of Ohio; George A. Rorer of Pennsylvania; George E. Roewer Jr., of Massachusetts, and Victor L. Berger and Edmund T. Melms of Wisconsin.

At the Hillquit was re-elected international secretary. The executive committee is to name and determine the number of delegates to the next Vienna international congress the party, earlier in the convention, decided to affiliate with.

The executive committee will meet the first of next year to decide on the date and place for next year's convention.

Santa Fe, May 2.—The Sumner Solitt company, an Illinois corporation, has filed its charter in New Mexico, and will maintain its headquarters in East Las Vegas, to charge George A. Rorer, its district agent. The company will conduct a general contracting business.

H. B. Watkins, former secretary of the Albuquerque chamber of commerce, arrived in the city yesterday from Mooseheart, Ill., where he has been located for the past year as national organizer of the Crystal City movement. Mr. Watkins is visiting his family here and will probably remain for several weeks.

The former chamber of commerce secretary, who is responsible for the slogan "Step Lively," expressed great pleasure at the development being made here. "I have always believed in Albuquerque," Mr. Watkins exclaimed after a trip through the city and seeing the building which is in progress, "and the spirit being shown now strengthens my belief in the city and the country." He is the south-west city which will surpass Denver and El Paso in size and activity."

Mr. Watkins has spent a great part of the year in the eastern cities where he has been called in connection with his official position in the Moose lodge and states that business generally is picking up and that "most business men believe that normal times are only a few months off."

"However, there is not a city in the country which is showing as much going up and development as Albuquerque," he declared.

The United Clear store, formerly of 207 West Central, moved Monday to their new location, 205 West Central, this being one door east of their former place. According to the proprietor, Mr. Farley, the change was made necessary in order that they would have ample room for their fast growing business.

Map of territory taken from Bolivia and Peru by Chile. 1—Taina and Arica, claimed by Chile and Peru; 2—Tarapaca taken from Peru; 3—Antofagasta taken from Bolivia.

Representatives of Chile and Peru are meeting in Washington at request of President Harding to iron out boundary differences between the two countries.

Correct in Practice. Today scientific dentists know that harsh drugs and chemicals harm mouth tissues. Colgate's Ribbon Dental Cream does not contain them. Authorities agree that a dentifrice should do only one thing—clean teeth thoroughly. Colgate's does this. No false claims are made that Colgate's possesses any other virtue, but it does possess this one in the highest degree, and in a higher degree than any other kind of dentifrice.
